

Instant typing-

```
keychar1.spec.ts X
mytest > keychar1.spec.ts > test('Type characters sequentially') callback
1 import {test, expect, Browser, Page, Locator, FrameLocator} from '@playwright/test'
2 import { log } from 'console';
3 import { webkit, chromium, firefox } from 'playwright'
4
5 test('Type characters sequentially', async()=>{
6   const browser:Browser = await chromium.launch({headless: false, channel: 'chrome'});
7   const page:Page = await browser.newPage();
8
9   await page.goto("https://www.flipkart.com/");
10
11   //use press sequentially method.
12   //types instantly.
13   await page.getByPlaceholder('Search for Products, Brands and More').pressSequentially("macbook");
14
15
16   await page.waitForTimeout(5000);
17
18 });
```

Give delay-

```
keychar2.spec.ts X
mytest > keychar2.spec.ts > test('Type characters sequentially') callback
1 import {test, expect, Browser, Page, Locator, FrameLocator} from '@playwright/test'
2 import { log } from 'console';
3 import { webkit, chromium, firefox } from 'playwright'
4
5 test('Type characters sequentially', async()=>{
6   const browser:Browser = await chromium.launch({headless: false, channel: 'chrome'});
7   const page:Page = await browser.newPage();
8
9   await page.goto("https://www.flipkart.com/");
10
11   //give delay.
12   await page.getByPlaceholder('Search for Products, Brands and More').pressSequentially("macbook",
13     {delay:600}
14   );
15
16
17   await page.waitForTimeout(5000);
18
19 });
```
